

SR250 SHORT REACH STARTING BLOCKS

SR250 base shown with optional coating

Flanged platform with short reach base

Short reach starting blocks are designed with a 240mm setback and 350mm height, allowing them to be installed on pool with narrow raised end walls. Available with 3 platform configurations including an elite competition platform with track start adjustable to 5 positions. The track start wedge can tuck away at the rear of the footboard.

- Suitable for narrow end walls
- Durable, non-slip tread
- Adjustable track start on 650 Launch and Velocity models
- FINA compliant
- Base: 316 Stainless Steel

+ “No Dive” & Solarguard covers available

BASE DIMENSIONS

Typical narrow end wall

CUSTOM OPTIONS AVAILABLE

- Square post tubing
- Custom colour coatings
